

10th Franco-Spanish Workshop
CMC2-IBERNAM
November 25th-26th 2021

These franco-spanish days on microsensors and microsystems are organised by the **CMC2** (www.cmc2.fr) and the **IberNAM** (www.ibernam.net) with the local organising committee from **IMS Laboratory** (www.ims-bordeaux.fr). The workshop will be held in [Arcachon](#) at the *Le Nautic hotel* with a dinner gala on Thursday evening.

All members from academia and industry are invited to contribute. The sessions will include oral as well as poster sessions and contribution from doctoral students are especially welcome. The workshop themes are broad, ranging from sensitive materials to various applications (environment, energy, health, pollution, transport, digital factory, etc.), including process technologies and signal processing (additive manufacturing, multi-sensor platforms, etc.).

ARCACHON, [LE NAUTIC HOTEL](#), 33 FRANCE
